Pride in Every Petal

Gerpom

Care & Handling

1. Cut 2.5 cm (1 in) off the gerbera stems.
2. Place in clean container with room temperature water.
3. Ensure that the water is treated with gerbera preservative (chlorine pill). The key to long gerbera life is keeping them bacteria free.
4. Display gerberas in a cool location. Keep away from heat sources, air conditioners, drafts, direct sunlight, and fruit.
5. Repeat steps 1-2 every 3 days.

Storage: 7-8°C (45-46°F) cooler
80-90% humidity
